STATEMENT OF THE OBJECTION

11. Other. Vol. 5, Table 2, Page 174.

REASON FOR OBJECTION

11. The HSR shows (Vol. 5, Table 2, Page 174) Filing Number 39-0014378 with an 1853 claim date.

The ADWR found: "FILING 39-14378 - CLAIMS A FEDERAL RESERVED RIGHT PRIORITY

DATE OF 1853, BUT THE CLAIMED DATE OF FIRST BENEFICIAL USE IS 1989."

At the same page, the HSR shows four Pre-Filing Numbers with an 1884 claim date:

36-0005092

36-0005094

36-0005095

36-0100035

At the same page, the HSR shows four Filing Numbers with an 1884 claim date:

39-0007071

39-0007074

39-0007075

39-0012898

The state of Arizona did not exist in 1853 or in 1884. The United States admitted

Arizona as a state in 1912, at which time it conveyed public domain lands to the
new state. The United States Senate ratified the Gadsden Treaty by which the
United States made the Gadsen Purchase which includes the San Pedro River
watershed only in mid-1854. The historic record does not substantiate the
1853 or the 1884 claim date (900).

The use of the water claimed depletes water for senior federal and Indian rights (1150).

Prefatory Statement.

Initially, Magma incorporates by reference its objections to Volumes I and IA of the San Pedro Hydrographic Survey Report, just as though each objection had been fully set forth herein. Specifically, and without limitation, Magma objects to the inclusion of groundwater rights within the scope of this Adjudication under the "brightline" theory set forth in Judge Goodfarb's order of September 9, 1988. Magma also objects on the basis that the withdrawal of groundwater from its wells does not significantly diminish the quantity of water available to satisfy downstream federal reserve rights.

Magma also reserves the right to supplement or amend these objections. Many of the issues upon which these objections are based will be subject to rulings of the Arizona Supreme Court entered in the pending interlocutory appeal of issues 2 through 6. (Objection code numbers 1130, 1132, 1133, 1134, 1135, 1136). Magma further reserves the right to object to each and every watershed file report, zone 2 well report or catalogued well report based upon subsequent rulings of the Arizona Supreme Court as may be entered in these interlocutory appeals.

Magma also objects to the characterization of the Arizona State Land Department as the owner of the PWR's referenced in this watershed File Report. Under Article 10, Section 10 of Arizona's Constitution, water rights are improvements to State trust lands and are therefore owned by the lessee. (220, 320)

- A. Magma objects to WFR No. 113-04-001-SP001 (Vol. 5, Table-Page 2-174 of the San Pedro HSR) for the following reasons:
- 1. Magma objects to the loation given for 38-94297 (SP001). Magma believes the correct location for SP001 is SW 1/4 of the NW 1/4 of Section 3, Township 8 South, Range 17 East. (600, 620, 623, 700, 720, 721)
- 2. Magma objects to the loation given for 39-003147 (SP001). Magma believes the correct location for SP001 is SW 1/4 of the NW 1/4 of Section 3, Township 8 South, Range 17 East. (600, 620, 623, 700, 720, 721)

- B. Magma objects to WFR No. 113-04-001-SP004 (Vol. 5, Table-Page 2-174 of the San Pedro HSR) for the following reason:
- 1. Magma objects to DWR assigning a 1989 apparent date of first use to SP004 when in fact SP004 should have an apparent date of first use of 1884, which is the date of first beneficial use for that area. (900, 910, 920)

- C. Magma objects to WFR No. 113-04-001 (Vol. 5, Table-Page 2-174 of the San Pedro HSR) for the following reason:
- 1. Magma objects to DWR stating "none" as the uses found by DWR for filing no. 39-0005235 for mining use. DWR lacks the legal authority as technical advisor to the court to make such a legal conclusion. (800, 810)
