Contested Case Nos. W1-11-3395

**ORDER FILING LANDOWNER  
LETTER**

CONTESTED CASE NAME: *In re Karen C. LeCount*

HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report

DESCRIPTIVE SUMMARY: Filing of landowner letter and explanation of procedures.

NUMBER OF PAGES: 26

DATE OF FILING: September 26, 2019

**Zone 2 Well Report 115-05-DA-001**

The purpose of this case is to determine and establish water rights for which Statements of Claimant have been made and are the subject of the Zone 2 Well Report 115-05-DA-001 prepared by Arizona Department of Water Resources (ADWR). At this early stage in the case, the purpose of the proceedings is to identify the claimants and landowners who seek to claim the water rights

1 investigated by the Zone 2 Well Report 115-05-DA-001. The Zone 2 Well Report lists two  
2 Statements of Claimant: 39-6486 and 39-12022. Robert Kramme filed 39-6486. Joseph D. Marco  
3 filed 39-12022. By letter dated September 13, 2019, Anna Magoffin as trustee of the Magoffin  
4 Family Trust represented that she delivered forms of assignment for the two Statements of  
5 Claimant to Arizona Department of Water Resources. The letter is attached as Attachment A.

6 The rules of the Court require that all substantive documents sent to the Court must be filed  
7 with the Clerk of the Court and copies sent to all parties to the case. A copy of the list of the  
8 parties and their addresses is attached as Attachment B. Future communications sent to the Court  
9 that are not also filed with the Clerk of the Court and copies mailed to the parties will be returned  
10 to the original sender. The landowner will have the opportunity to discuss the assignments with  
11 representatives of ADWR at the meeting to be scheduled by ADWR by or before **October 15,**  
12 **2019.**

13 At the ADWR meeting, the landowners and the objectors will also have the opportunity to  
14 discuss the objections filed by the objectors and possible resolution of those objections. Pursuant  
15 to the applicable rules, ADWR will file a Report with the Court within five (5) days about the  
16 results of the meeting. Any party has the right to request in writing, with copies to all parties, that  
17 the Court schedule either a status conference or a hearing on the water rights. After receipt of the  
18 meeting report from ADWR, the Court will schedule further proceedings necessary to adjudicate  
19 water rights. The next step will most likely be a second status conference unless the parties (1)  
20 specifically request that a hearing be set or (2) resolve all objections and file a set of abstracts  
21 defining the water rights with maps to which all parties have agreed in writing.

22  
23  
24 **Additional Contested Cases to Determine Water Rights**

25 The Arizona statutes that govern the adjudication of water rights require that when a  
26 claimant has asserted other claims for a water right such as a right to use water for irrigation, the  
27 Court must also determine other rights for water uses asserted by the claimant in the same

1 subwatershed. Such other uses can include stockponds and stock watering. Thus, as stated in the  
2 minute entry filed September 24, 2019, prior to the date of the meeting scheduled with Arizona  
3 Department of Water Resources, the trustees of the Magoffin Family Trust shall file a list of all  
4 Statements of Claimant with the Court, and send copies of the list to the parties, on which the  
5 trustees rely to assert water rights that have been the subject of an investigation by ADWR and  
6 included in the San Pedro Hydrographic Survey Report issued in 1991.

7 Under Arizona law, a person must file a Statement of Claimant to assert a water right as  
8 part of this General Adjudication. A.R.S. §45-254 The Statement of Claimant is usually not the  
9 only form that a person must file to establish a water right. As part of the process to determine  
10 water rights asserted in a Statement of Claimant, the Court must consider whether the claimant can  
11 establish a legal basis for the water right. Several methods exist to establish a legal basis for a  
12 water right. One method is based on the filing of applications and claims for water rights with  
13 ADWR. The applications, claims and permits on file with ADWR can be considered as part of the  
14 General Adjudication process that results in a judicial determination or establishment of the extent  
15 and priority of water rights.

16 According to ADWR's public records, the Magoffin Trust is the applicant or claimant in a  
17 large number of documents filed with ADWR concerning water rights that are listed in column 1 of  
18 Table 1 on page 4. Included in the documents listed are Applications for Permit to Appropriate  
19 Public Water (registration numbers begin with a 33- or 3R-); Statements of Claim (registration  
20 numbers begin with a 36- ), and Claims of Water Right for a Stockpond (registration numbers  
21 begin with a 38- ). None of these documents are Statements of Claimant (registration numbers  
22 begin with a 39- ).

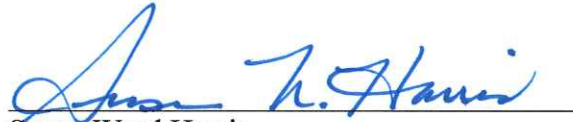

23 The public records maintained by ADWR include registration numbers and ADWR's  
24 assessment of the status of the relevant surface water documents. In this case, according to  
25 ADWR, assignments of documents have been filed to transfer them to the Magoffin Trust. Table 1  
26 provides the registration numbers of the documents filed with ADWR, ADWR's assessment of the  
27 status of the assignment of each document, and the relevant watershed file report in which those  
28

1 documents are listed as pre-adjudication filings. (A pre-adjudication filing is a document filed  
 2 prior to the adjudication by the Court of a water right.) The identified watershed file reports are  
 3 attached as Attachment C.

September 13, 2019

Special Master Susan Ward Harris,

Concerning Contested cast W1-11-3395. On August 5<sup>th</sup> I received the copy of the deed from Pioneer Title and downloaded an assessor's map for parcel 110-45-021C. On August 8<sup>th</sup> I took two Statements of Claim Assignment forms into Pioneer title for notarized signatures for both 39-6486 and 39-12022. On August 12<sup>th</sup> I had delivery confirmation from the USPS that the packet had been delivered.

We have all water rights properly transferred from the purchase of this land except those pertaining to irrigation. I feel there was corruption in these being withheld.

I sent the proper paperwork in in a very timely fashion and it disappeared, I believe there is corruption involved.

I have called repeatedly to the number listed on the forms sent and I have called ADWR to have calls transferred to individuals that are known to be in the office and I have NOT had one called answered or one message returned.

I protest the handling of this case and I believe there should be an investigation into possible corruption and/or bribery involved.

Sincerely,

Anna Magoffin, trustee of the Magoffin Family Trust
