NUMBER OF PAGES: 72.

DATE OF FILING: July 12, 2018

1 This case involves claims asserted by the Bureau of Land Management under state law for
2 stock and wildlife watering and stockponds on land leased by The Nature Conservancy located in
3 the Aravaipa subwatershed. A claimant who asserts small water use claims¹ and other water use
4 claims in the same subwatershed shall have all of its water uses determined concurrently. A.R.S.
5 §45-257. Currently, BLM has claims based on federal reserved water rights for thousands of acre
6 feet of water for instream flow in the Aravaipa Canyon Wilderness Area, which is located in the
7 Aravaipa subwatershed, in litigation.
8

9 This Order initiates a contested case to resolve objections to Watershed File Reports 115-
10 05-005, 115-05-017, and 115-05-018 published in the Final San Pedro River Watershed
11 Hydrographic Survey Report (1991). Copies of the watershed file reports are attached as
12 Attachment A. All of the potential water rights listed in the Watershed File Reports and at issue
13 here are claims for stock and wildlife watering and stockponds.
14

15 In 1994, the Special Master issued a Memorandum Decision, Findings of Fact, and
16 Conclusions of Law for Group 1 Cases involving Stockwatering, Stockponds, and Domestic Uses,
17 dated November 14, 1994, amended February 23, 1995, approved and modified September 27,
18 2002 (“Decision”). The Decision established the procedures for adjudicating *de minimis* water
19 rights for claims in the San Pedro watershed based on state law.
20

21 **Watershed File Report 115-05-005**

22 This report identifies 27 Statements of Claimant. No potential water rights were
23 associated with three statements of claimant: 39-4261, 39-6883, and 39-13991. By letter dated
24 June 11, 1990, BLM requested the withdrawal of statements of claimant 39-6883 and 39-12029.
25 Based on the public records maintained by the Arizona Department of Water Resources, BLM
26

27
28 ¹ A small water use includes stockponds that have a capacity of not more 15 acre feet that is used solely
for watering livestock or wildlife and stock watering used by livestock or wildlife. A.R.S. §45-251(9)

1 filed Statement of Claimant 39-13624 and is named as the assignee of the remaining Statements
2 of Claimant that are listed as the relevant filings for eight stockponds and five stock watering
3 uses.

4 No water right abstract was prepared for 115-05-005-SP002 because no statement of
5 claimant was filed for that water right. *See* Decision at 44. No water right abstract was prepared
6 for 115-05-005-SW005 because no preadjudication filing or other legal basis was matched to the
7 water use. *See* Decision at 45.

8 9 10 **Watershed File Report 115-05-017**

11 This report identifies two Statements of Claimant: 39-14438 and 39-5538. Statement of
12 Claimant 39-14438 asserted a claim based on Executive Order No. 107 and was adjudicated in
13 contested case W1-11-1174. The remaining Statement of Claimant 39-5528 makes a claim for
14 wildlife watering in Sycamore Canyon. No water right abstract was prepared for 115-05-017-
15 WL002 because no statement of claimant was filed for that water right. *See* Decision at 44.

16 17 **Watershed File Report 115-05-018**

18 Sixty five Statements of Claimant are listed in the watershed file report. No potential
19 water rights were associated with 39-4856, 39-5483, 39-6881, 39-6906, 39-12578 and 39-12579.
20 According to the watershed file report, BLM requested the withdrawal of Statements of Claimant
21 39-6871, 39-6876, 39-6883, 39-6891, 39-6892, 39-6897, and 39-6903.

22
23 No water right abstracts were prepared for 115-05-018-SW023, 115-05-018-SW026, and
24 115-05-018-SW027 because no statements of claimant were filed for those water rights. *See*
25 Decision at 44. No water right abstracts were prepared for 115-05-018-SW005, 115-05-018-
26 SW007, 115-05-018-SW008 and 115-05-018-SW025 because no preadjudication filings or other
27 legal bases were matched to the water uses. *See* Decision at 45. Based on the public records
28 maintained by the Arizona Department of Water Resources, BLM filed Statement of Claimant 39-

1 14509 and is named as the assignee of the remaining Statements of Claimant that are listed as the
2 relevant filings for 15 stockponds and 18 stock watering uses.

3
4 **Proposed Abstracts**

5 Proposed abstracts for the water rights analyzed by Watershed File Reports have been
6 prepared and are attached as Attachment B. The abstracts will be subject to a two-step process.
7 First, ADWR will be requested to review and revise, if necessary, the legal descriptions for the
8 points of diversion and places of use. Second, the proposed abstracts will be corrected in
9 accordance with the Report filed by ADWR and the litigants will be provided an opportunity to
10 suggest corrections of any mistakes in the proposed abstracts. See Decision at 47. Following a
11 review of any suggested corrections, the abstracts will be included in a catalog of proposed water
12 rights where they will be subject to very limited set of objections and ultimately in a final decree.
