31 This Order initiates a contested case to resolve the objections made to claims for
32 water from Aravaipa Creek and its tributaries for irrigation use on land owned or leased by
33
34

1 Edward Lackner individually or as Trustee of the Lackner Living Trust, dated June 30, 1980.
2
3 The potential water uses are analyzed in two watershed file reports: 115-05-DB-001 and 115-
4 05-DB-002. In addition, pursuant to A.R.S. § 45-257, which requires that a “claimant’s small
5 water use claims¹ shall be determined in conjunction with the determination of that claimant’s
6 other claims,” this contested case shall also resolve objections to claims for stockponds and
7 stock watering in the following watershed file reports: 115-05-002, 115-05-004, 115-05-022,
8 115-05-038, 115-05-042. Copies of the seven watershed file reports are attached as
9 Attachment A.

10 **Irrigation Claims**

11 Watershed File Report 115-05-DB-001 analyzes claims filed by claimants Kirrilla B.
12 Lackner Rouse² and Arizona State Land Department³. The watershed file report identifies
13 the landowner as Lackner and Son, Ltd. and Lackner Living Trust. All identified uses,
14 according to Arizona Department of Water Resources occur on the south half of Section 26
15 T7S R19E. According to the Graham County records, Ms. Rouse transferred land in Sections
16 26 and 27 T7S R19E to Lackner & Son, Ltd. by Special Warranty Deed, dated January 15,
17 1991. By Warranty Deeds dated June 12, 2009, Lackner & Son, Ltd. and Edward G. Lackner,
18 as successor trustee of the Edward G. Lackner Trust of the Kirrilla B. Rouse Trust transferred
19 to Edward G. Lackner as trustee of the Lackner Living Trust dated June 30, 1980 real
20 property in the south half of section 26 of T7 R19 of the Gila and Salt River Base and
21 Meridian, Graham County, Arizona. The public records maintained by the Arizona

24
25 ¹ A small water use includes stockponds that have a capacity of not more 15 acre feet that is used solely
for watering livestock or wildlife and stock watering used by livestock or wildlife. A.R.S. §45-251(9)
26
27 ² Statements of Claimant nos. 39-3472, 39-3473, 39-3474, 39-3478, and 39-3492.
The State Land Department filed Statement of Claimant no. 39-6964 that ADWR found to be for a
parcel of state land which did not apply to the property that was the subject of the watershed file report.

1 Department of Water Resources do not include an assignment of the Statements of Claimant
2 filed by Kirrilla B. Lackner Rouse. Mr. Lackner, in his capacity as a trustee of the Lackner
3 Living Trust, is a party to this case because according to the county records he is a successor
4 in interest to the original claimant. *See* Pre-Trial Order No. 1, filed May 30, 1986 at 4.

5 Watershed File Report 115-05-DB-001 identifies one potential water right for
6 domestic use, four potential water rights for irrigation use and one potential water right for
7 stock watering. The report lists priority dates that range from 1913 to 1984.

8 As in Watershed File Report 115-05-DB-001, Watershed File Report 115-05-DB-002
9 analyzes claims made in the Statements of Claimant filed by Kirrilla B. Lackner Rouse and
10 the Arizona State Land Department.⁴ Watershed File Report 115-05-DB-002 identifies
11 Arizona State Land Department as the landowner and Lackner and Son, Ltd. and the Lackner
12 Living Trust as the lessees of the property. The place of use of the potential water rights is
13 SWNE 26 T7S R19E. Public records maintained by the Arizona State Land Department
14 identify the current lessee of state trust land in section 26 T7S R19E as the Lackner Living
15 Trust. The report identifies one potential water rights for irrigation use and one water right
16 for stock watering. The report lists priority dates that range from 1884 to 1984.

17 **Stockpond and Stock Watering Claims**

18 This contested case also includes five Watershed File Reports that analyze claims
19 for water for stockponds and stock watering on property for which public records indicate that
20 Edward Lackner individually or as trustee of the Lackner Living Trust is the owner or lessee.
21 As in the case of the irrigation claims addressed above, the public records maintained by
22 Arizona Department of Water Resources do not include a Statement of Claimant filed by or
23

24 _____
25 ⁴ Watershed File Report 115-05-DB-002 identifies the same Statements of Claimant as are listed in
26 Watershed File Report 115-05-DB-001 with the exception of Statement of Claimant No. 39-3474 which is not
27 listed in Watershed File Report 115-05-DB-002.
28

1 assigned to Mr. Lackner. The Statements of Claimant listed in the Watershed File Reports
2 were filed by the Arizona State Land Department, Margaret Haby, a lessee of the Arizona
3 State Land Department, and Kirrilla Rouse. The five Watershed File Reports identify 37
4 stock watering uses and 21 stockponds.

5 In 1994, the Special Master issued a Memorandum Decision, Findings of Fact, and
6 Conclusions of Law for Group 1 Cases involving Stockwatering, Stockponds, and Domestic
7 Uses, dated November 14, 1994, amended February 23, 1995, approved and modified
8 September 27, 2002 ("Decision"). The Decision determined that stock watering and certain
9 stockponds and domestic uses in the San Pedro River watershed constitute *de minimis* uses
10 and established expedited procedures for adjudicating those claims. Stock watering means
11 instream watering of stock at unimproved or improved locations on a stream, creek, spring or
12 similar source. *Id. at 5*. For purposes of the Decision, a stockpond is defined as a pond or
13 artificial facility having a capacity of not more than 15 acre-feet and used solely for stock or
14 wildlife. *Id. at 6*.

17 The expedited adjudication process set forth in the Decision requires the preparation
18 of proposed water right abstracts that include the following information: the proposed water
19 right number, the owner of the water right, the landowner, the statement of claimant number,
20 the name of the claimant, the lessee or permittee, the basis of the right, the beneficial use, the
21 priority date, the quantity of water, the place of use, point of diversion, source of water and
22 name of facility, where available.

24 Watershed File Reports 115-05-002, 115-05-004, and 115-05-022 identify the State
25 Land Department as the landowner and list Statements of Claimant filed by Kirrilla Rouse
26 and the State Land Department. The ownership of the water rights under Arizona law is
27 determined as follows:

28

1 If ownership of a right to use water for stock watering or stockpond
2 purposes or for domestic use on a ranch or farm on state land in disputed
3 in a general adjudication of the rights to use the waters of a river system
4 and source, the water right will be adjudicated in the name of the
5 claimant other than the state if both of the following apply:

- 6 1. The point of diversion and the place of use, or the perfection
7 of the water rights by the appropriator comply with section
8 37-321.01, subsection A.
9 2. The state land commissioner has been afforded the
10 opportunity to resolve the claim.

11 A.R.S. §45-257(D).

12 The priority dates for the *de minimis* uses will be based on the apparent dates of first
13 use listed on the potential water right section of the watershed file report. *Id. at 42.* If the
14 information is available, the priority date will include day and month as well as year. If day
15 and month information is not available, then the priority date will be December 31st of the
16 year. *Id.*

17 The quantity of water to be awarded for stockponds and stock watering has also been
18 set by the Decision. A uniform volume of “not to exceed four acre feet with continuous fill”
19 will be adjudicated for all stockponds in the San Pedro River watershed having a capacity of
20 four acre feet or less. *Id. at 34.* For State Land Department stockponds claimed or having a
21 capacity in excess of four acre feet, the amount claimed on the statement of claimant should
22 be adjudicated as the volume (with continuous fill). *Id. at 35.* The quantity for each stock
23 watering use will be adjudicated as “reasonable use”. *Id. at 31.*

24 The proposed water right number, the beneficial use, the priority year, place of use,
25 point of diversion and name of facility for the stockponds identified in the Watershed File
26 Reports for which a statement of claimant has been filed are shown on Attachment B. The
27 same information for the stock watering uses is shown on Attachment C.
