15 CONTESTED CASE NAME: *In re Pima County*

16 HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.

17 DESCRIPTIVE SUMMARY: The Special Master issues abstracts for proposed water rights for
18 stockponds and for stock watering analyzed by Watershed File Report No. 111-19-002 and sets a
19 deadline to file suggested corrections.

20 NUMBER OF PAGES: 13.

21 DATE OF FILING: November 30, 2016
22
23

24 This case involves *de minimis* claims for water rights analyzed by WRF No. 111-19-
25 002 included in the final hydrographic survey report for the San Pedro Watershed ("San Pedro
26 HSR") filed on November 20, 1991. A copy of WFR No. 111-19-002 is attached to this Order
27
28

1 as Appendix A. In 1992, the Salt River Project and the Gila River Indian Community filed
 2 objections to WRF No. 111-19-002. In 1994, the Special Master issued a Memorandum
 3 Decision, Findings of Fact, and Conclusions of Law for Group 1 Cases involving
 4 Stockwatering, Stockponds, and Domestic Uses, dated November 14, 1994, amended February
 5 23, 1995, approved and modified September 27, 2002 (“Decision”). The Decision established
 6 the procedures for adjudicating *de minimis* water rights for claims in the San Pedro watershed.
 7

8 The Decision directs that proposed water right abstracts be prepared for the *de minimis*
 9 claims analyzed by WFR No. 111-19-002 and filed as a supplement to the Decision. Once the
 10 proposed water right abstracts have been prepared, “the litigants will be provided an opportunity
 11 to suggest the correction of mistakes in the proposed abstracts.” Decision, p. 47. This
 12 proceeding is not a forum in which to relitigate the Decision, which was the subject of years of
 13 briefing and has now been affirmed for more than 14 years. Subsequently, these abstracts will
 14 be included in a catalog of proposed water rights where they will be subject to very limited set
 15 of objections and ultimately in a final decree.
 16

17 As required by the Decision, proposed water right abstracts have been prepared for the *de*
 18 *minimis* water rights analyzed by WFR 111-19-002 for which Pima County is the Landowner:

1 The WFR also included proposed water rights 111-19-002-SP004 and 111-19-002-SP005 with
2 respect to two additional stockponds. No water right abstracts were prepared for these proposed
3 water right numbers 111-19-002-SP004 and 111-19-002-SP005 because no statement of
4 claimant was filed and matched to the water uses. Decision, p. 44. Further, no abstract was
5 prepared based on Sands Investment Company's statement of claimant No. 39-0013764 because
6 Sands Investment Company conveyed the land for which the claim applies to Pima County and
7 because statement of claimant No. 39-0013764 appears to duplicate statement of claimant No.
8 39-0002013 in terms of water use and location.
9

10
11 The four proposed water right abstracts have been prepared in accordance with the
12 Decision and are attached as Appendix B. Each proposed water right water abstracts includes
13 the following information: a proposed water right number, owner of the water right, landowner,
14 statement of claimant associated with proposed water rights, name of the claimant, contested
15 case, basis of water rights, beneficial use, priority date, quantity, calculation of quantity where
16 appropriate, point of diversion, place of use, source of water. No other water right attributes
17 will be included in the abstracts for these *de minimis* water rights. Litigants now have an
18 opportunity to suggest any corrections of mistakes in the proposed abstracts.
19

20 Pursuant to § 1.14, Rules for Proceeding before the Special Master, the term "Litigants"
21 includes:

22 [t]hose person who are involved in a specific contested case. They typically
23 include the landowner upon whose land a water use has been found, the
24 claimant who filed a Statement of Claimant form asserting the water use, other
25 claimants who have filed objections to all or portions of a Hydrographic Survey
26 Report or to a catalog of proposed water rights, and other claimants who have
27 successfully intervened in the contested case. A litigant who is not a natural
28 person may appear in contested case proceedings through its counsel or another
agent having authority to act for the litigant.

For purposes of this case, the litigants shall also include all other litigants in **In re Sands**

1 **Group of Cases** because these claims have been consolidated with the claims in **In re Sands**
2 **Group of Cases** for many years and there is no desire to limit notice or participation in these
3 proceedings by virtue having separated these claims from the remaining claims in **In re Sands**
4 **Group of Cases**.

5 **IT IS ORDERED** that any suggested corrections to the proposed abstracts shall be filed
6 on or before **February 1, 2017**.

7 **IT IS FURTHER ORDERED** that the court approved mailing list for **In re Sands**
8 **Group of Cases** shall also serve as the court approved mailing list for this case.
