Order No. 1 is shown in parenthesis following each
objection statement.

ATTACHMENT 1

WFR CATEGORY 8 - PWR SUMMARY

The Salt River Project objects to the apparent date of first use assigned to this Potential Water Right (PWR). Previous filings, including certificates of water right and Water Rights Registration Act (WRRRA) filings, are the evidentiary foundation for the date of priority associated with a water right. Where a PWR is matched to both a certificate of water right and a WRRRA filing claiming a date prior to June 12, 1919, the priority date set forth in the certificate should form the basis for the apparent date of first use, unless sufficient historical evidence indicates a contrary date.

The Watershed File Report fails to articulate sufficient historical evidence to refute the priority date set forth in the certificate of water right matched to this PWR. In the absence of such evidence, the apparent date of first use should be the date set forth in the certificate (0920). This objection applies to: SW001 and SW003.

* * * *

The Salt River Project objects to the basis used by DWR to assign the apparent date of first use to this Potential Water Right (PWR). Previous filings, particularly Certificates of Water Rights, are the evidentiary foundation for the date of priority associated with a water right. This PWR has been matched to a certificate and a Water Rights Registration Act (WRRRA) filing. The apparent date of first use for this PWR should be based on the certificate, not the WRRRA filing, even though in this case the dates are the same (0910). This objection applies to: SW002.

WFR CATEGORY 9 - QUANTITIES OF USE

The Salt River Project objects to the failure of DWR to assign a quantity of use to this Potential Water Right (PWR). All water rights subject to the court's jurisdiction must be quantified in accordance with A.R.S. § 45-257(B). This PWR is no exception (1010). This objection applies to: SW001 and SW003.

* * * *

WFR CATEGORY 9 - QUANTITIES OF USE (continued)

The Salt River Project objects to the failure of DWR to calculate a diversion rate for this Potential Water Right (PWR). All PWRs assigned a point or points of diversion should be assigned a separate diversion rate for each point of diversion. Diversion rates should be calculated at the point of diversion and should include conveyance losses (1010). This objection applies to: SW001.

STATEMENT OF THE OBJECTION

The following are the main categories of the typical Watershed File Report (Zone 2 Well Reports and some Watershed File Reports lack certain categories). Please check the category(ies) to which you object, and state the reason for the objection on the back of this form.

- 1. I object to the description of Land Ownership.
- 2. I object to the description of Applicable Filings and Decreases.
- 3. I object to the description of DWR's Analysis of Filings and Decreases.
- 4. I object to the description of Diversions for the claimed water right(s).
- 5. I object to the description of Uses for the claimed water right(s).
- 6. I object to the description of Reservoirs used for the claimed water right(s).

- 9. I object to the description of Quantities of Use for the claimed water right(s).
- 10. I object to the Explanation provided for the claimed water right(s).
- 11. Other Objections (please state volume, page and line number for each objection).

REASON FOR OBJECTION

The reason for my objection is as follows (please number your objections to correspond to the boxes checked above; please attach supporting information and additional pages as necessary):

1. The Bureau of Land Management objects to inaccurate ownership status reported by ADWR in this Watershed File Report. If the court determines that the entitlement must be held by the landowner, the United States respectfully requests the court to substitute the Bureau of Land Management as the owner of the entitlement so the priority date is not forfeited and a hardship is not worked on the lessee or permittee claimant. (310, 320)
2. The Bureau of Land Management objects to ADWR's inclusion and use of inaccurate or unrelated legal descriptions in this Watershed File Report. (210)

Some of the claims submitted under the requirements of the adjudication were not identified or evaluated by ADWR. (400)

There are uses for water listed under this Watershed File Report that have not been accurately identified. (810)

The quantity of water use listed by the claimant and/or evaluated by ADWR under this Watershed File Report is inaccurate and should be adjusted prior to the final adjudication. (1010)
3. The Bureau of Land Management objects to ADWR's incomplete or inaccurate creation or preparation of Potential Water Rights (PWR's). (220)

The Bureau of Land Management objects to ADWR's inaccurate analysis of information provided in the pre-filings and/or filings listed in this Watershed File Report. (410, 471)

There are uses for water listed under this Watershed File Report that have not been accurately identified. (810)
5. ADWR failed to identify and/or associate filings and/or prefilings with water uses under this Watershed File Report. (410)

8. The Bureau of Land Management objects to ADWR's inclusion and use of inaccurate or unrelated legal descriptions in this Watershed File Report. (210)

The Bureau of Land Management objects to ADWR's incomplete or inaccurate creation or preparation of Potential Water Rights (PWR's). (220)

Some of the claims submitted under the requirements of the adjudication were not identified or evaluated by ADWR. (400)

ADWR failed to identify and/or associate filings and/or prefilings with water uses under this Watershed File Report. (410)

ADWR incorrectly indicated that there was no water use at some of the locations listed by the claimant. The claimant has information that refutes ADWR's assessment. (720)

There are uses for water listed under this Watershed File Report that have not been accurately identified. (810)

The priority date assigned to some of the uses listed under this Watershed File Report are inaccurate. (920)

9. Some of the claims submitted under the requirements of the adjudication were not identified or evaluated by ADWR. (400)

ADWR incorrectly indicated that there was no water use at some of the locations listed by the claimant. The claimant has information that refutes ADWR's assessment. (720)

The quantity of water use listed by the claimant and/or evaluated by ADWR under this Watershed File Report is inaccurate and should be adjusted prior to the final adjudication. (1010)

10. The Bureau of Land Management objects to the fact that ADWR has inaccurately or incompletely explained information related to this Watershed File Report. (210)

ADWR incorrectly indicated that there was no water use at some of the locations listed by the claimant. The claimant has information that refutes ADWR's assessment. (720)
