

SUPERIOR COURT OF ARIZONA
MARICOPA COUNTY

January 9, 2025

CLERK OF THE COURT

SPECIAL WATER MASTER
SHERRI ZENDRI

S. Ortega
Deputy

In Re: Robert Allen & Angela Buzan
Contested Case No. W1-11-2399

FILED: January 14, 2025

In Re: The General Adjudication
of All Rights to Use Water in the
Gila River System and Source

W-1, W-2, W-3 and W-4 (Consolidated)

In Re: Status Conference

MINUTE ENTRY

Courtroom: CCB 301

11:30 a.m. This is the time set for a virtual Status Conference before Special Water Master Sherri Zendri.

The following attorneys and parties appear virtually and/or telephonically:

- Robert Allen Buzan Jr. and Robert Allen Buzan III, Current Property Owners
- Katrina Wilkinson observing for Salt River Project (SRP)
- Michael Carter for the Gila River Indian Community
- Laurel A. Herrmann and Alexander Ritchie for San Carlos Apache Tribe
- Kaitlyn Smith for ASARCO
- John Habib for BHP Copper
- Maggie Woodward and Amanda Eubanks for the United States Department of Justice
- Karen Nielsen for the Arizona Department of Water Resources (ADWR)
- Candace D. French for the Navajo Nation

A record of the proceedings is made digitally in lieu of a court reporter.

The Court informs Mr. Buzan of the reasons for today's status conference. Mr. Buzan confirms that he is interested in moving forward with this particular potential water right.

Mr. Buzan indicates that he has not had any contact with Pamela Atkinson who also has a potential claim of water right on the property.

Mr. Buzan is interested in receiving courtesy electronic copies of orders and minutes regarding this matter and provides his personal email address to the Court.

The Court provides background information to Mr. Buzan of the ground water well being used on the property. Mr. Buzan informs the Court that the well water is being used for stock water only, not for irrigation.

Discussion is held regarding the status of the water use. The Court informs Mr. Buzan that the statement of claimant will need to be updated with the current use of the well water as well as additional documentation and basis of right.

The Court will include further contact information and data links later in this minute entry to assist the Buzans in moving forward with the potential water rights on the property. Information will also be provided on the objections made to the watershed file reports in this case.

The Court gives further background information regarding ground water and surface water and highly recommends that the Buzans meet with ADRW regarding basic assistance with updating the statements of claimant and the legal basis of right.

Based on the discussions held and for reasons set forth on the record,

Another Status Conference will be set in this matter within sixty (60) days.

11:47 a.m. Hearing concludes.

LATER:

Property owner Pamela Atkinson failed to appear at today's initial hearing.

IT IS ORDERED scheduling a status conference for **Thursday, March 6, 2025, at 10:30am**. All parties interested in pursuing potential water rights must attend. If Ms. Atkinson fails to attend this second conference, she will be removed from the court approved mailing list and potential water rights in this contested case forfeited.

The status conference will be held using the Court Connect program. Instructions for Court Connect are attached as Attachment A. If you receive this Order by email, click on the red box "Join Court Connect Hearing" on the attached instructions

to make an appearance. If you do not receive this Order by email, log into the Court Connect program on the internet by typing <https://tinyurl.com/specialwatermaster>. If you do not have access to the internet, you may attend telephonically using the telephone number and access code included in the instructions for Court Connect.

ADDITIONAL INFORMATION

Arizona regulates surface water and groundwater differently. Surface water is governed by the doctrine of “prior appropriation”, which means that the first person to divert the water and put it to beneficial use has the senior right to that water. All subsequent water users have a junior right to the water and can only use the water as long as there is enough to fulfill all the senior rights first. Groundwater is governed by the doctrine of “reasonable use.” A property owner may extract as much groundwater as can be reasonably used for a beneficial use.

However, case law as a result of the General Stream Adjudication has developed the legal concept of “subflow” - water that flows underground, but exists so close to, or reacts so directly with, a surface stream that the water is actually a part of that surface stream and not a separately distinguishable groundwater source. In 1993, the Arizona Supreme Court agreed that subflow should be regulated as surface water, and wells located within the subflow zone are presumed to be pumping surface water. Development of the subflow zone for any particular Arizona river system is a multiple year endeavor completed by the Arizona Department of Water Resources (ADWR) with cooperation from the Arizona Geological Survey. The April 2014 Revised Subflow Delineation for the San Pedro River, as well as documents prepared by the ADWR as part of the November 1991 Hydrographic Survey Report (“HSR”) and can be found on the ADWR website at:

<https://www.azwater.gov/adjudications>

To pursue water rights, a property owner must both file a Statement of Claimant, and present to the Court evidence of a legal right to the water they claimed on the Statement of Claimant. If the property owner proves to the Court the existence of a legal water right on their property, the Court will recognize enforceable water rights in a “Final Decree.” ARS § 45-257(B).

Objections for this contested case can be found on the General Stream Adjudication website under “Active Cases” at:

<https://www.superiorcourt.maricopa.gov/SuperiorCourt/GeneralStreamAdjudication/docs/W1-11-2329-Objections.pdf>

Parties wishing to move forward with historical water rights claims on their property must ensure Statement of Claimants are current and that documentation of the reason the claim to the water is legally valid, also known as the “basis of right,” is presented to the Court. Additionally, claimants must be able to document the use of the water had not been suspended for any period of five (5) successive years since the use began.

1) Statement of Claimants (SOCs)

A SOC is a landowner’s or lessee’s (“claimant’s”) written statement to the Court that provides details about their water right claim. This claim to use public water is filed with the Arizona Department of Water Resources (“ADWR”). Although a water right generally remains attached to the land, the SOC must reflect the current claimant’s name and contact information as well as any changes to the original claim. The SOC as filed does not list current property owners or lessees. To update an SOC, parties may make an SOC amendment, obtain a SOC assignment from the original claimant, or file a new SOC for their use. See Ariz. Rev. Stat. §§ 45-254. Forms may be found on ADWR’s website at:

<https://www.azwater.gov/adjudications/statement-claimant-new-use-summons-forms>

2) Basis of Right

To obtain a water right, a claimant must also provide a “basis of right.” A basis of right is a document filed with ADWR either registering a water right, applying for a permit to appropriate water, or applying for a stockpond claim of right. See Arizona Revised Statutes (“Ariz. Rev. Stat.”) §§ 45-182(A), 45-152(A), 45-273.

If a claimant proves that the water right claimed was initiated prior to June 12, 1919, they do not need to file an “application for a permit to appropriate,” but must present a statement of claim registering their claimed water right and filed prior to, (90 days before the publication of the San Pedro HSR). See Ariz. Rev. Stat. §§ 45-171, 45-182(A). ***Note that a statement of claim is a different document than a statement of claimant.***

ADWR can help the current property owners determine if former Claimants properly registered the potential water rights claimed on the SOC’s for this contested case. If a claimant either cannot prove that the water right claimed was initiated prior to June 12, 1919, or cannot present a statement of *claim* filed prior to August 22, 1991, the claimant must file either an “application for a permit to appropriate public water” or an “application for a stockpond claim of right.” Ariz. Rev. Stat. §§ 45-152(A), 45-272(C).

If the claimed water right is for a pond constructed before 1977, less than 15 acre-feet, and used solely for watering livestock or wildlife (but not primarily for fishing

or culturing of fish), the claimant should file an “application for a stockpond claim of right.” Ariz. Rev. Stat. §§ 45-271, 45-272. If the claimed water right is for any other use, the claimant must file an “application for a permit to appropriate public water.” Blank forms for either application may be found on the ADWR website at:

<https://www.azwater.gov/surface-water/surface-water-forms-and-documents>.

Because of the time and cost involved in pursuing an “application for a permit to appropriate public water” or an “application for a stockpond claim of right,” claimants should first gather as much evidence as possible to determine which, if any, of their water rights claims are for water uses initiated prior to June 12, 1919, and described in a timely filed statement of *claim*.

Federal land entry case files (e.g. homestead proofs and affidavits) may be useful for proving historical farming and grazing activity on your land. Resources for finding land entry filings are listed below:

- Federal land patents may be found here:
