ATTACHMENT 1

WFR CATEGORY 4 - DIVERSIONS

The Salt River Project objects to the failure of DWR to identify a point of diversion and determine a diversion rate for this Potential Water Right (PWR). For purposes of administration, all PWRs must be assigned a point of diversion, as well as a diversion rate. Diversion rates should be calculated at the point of diversion and should include conveyance losses (0610). This objection applies to: DM001.

WFR CATEGORY 8 - PWR SUMMARY

The Salt River Project objects to the absence of an apparent date of first use for this Potential Water Right (PWR). Previous filings, where available, are the evidentiary foundation for the date of priority associated with any water right. This PWR has been matched to a Water Rights Registration Act (WRRRA) filing. The date claimed in the WRRRA filing should form the basis for the apparent date of first use, unless sufficient historical evidence indicates a contrary date.

The Watershed File Report fails to articulate sufficient historical evidence to refute the priority date claimed in the WRRRA filing matched to this PWR. In the absence of such evidence, the apparent date of first use assigned to this PWR should be the date claimed in the WRRRA filing (0910). This objection applies to: DM001.

WFR CATEGORY 9 - QUANTITIES OF USE

The Salt River Project objects to the failure of DWR to assign a quantity of use to this Potential Water Right (PWR). All water rights subject to the court's jurisdiction must be quantified in accordance with A.R.S. § 45-257(B). This PWR is no exception (1010). This objection applies to: DM001.
