17  
18 CONTESTED CASE NAME: *In re BLM-Nature Conservancy Leased Land*

19 HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report

20  
21 DESCRIPTIVE SUMMARY: The Special Master issues 42 abstracts for proposed water rights for  
22 stockponds and for stock watering analyzed by Watershed File Report Nos. 115-05-005, 115-05-017, and 115-05-018 and sets a deadline to file suggested corrections.

23 NUMBER OF PAGES: 46

24 DATE OF FILING: November 16, 2018

25 This case involves *de minimis* claims for water rights analyzed by watershed file nos.  
26 115-05-005, 115-05-017, and 115-05-018 included in the final hydrographic survey report for  
27 the San Pedro Watershed ("San Pedro HSR") filed on November 20, 1991. In 1994, the Special  
28

1 Master issued a Memorandum Decision, Findings of Fact, and Conclusions of Law for Group 1  
2 Cases involving Stockwatering, Stockponds, and Domestic Uses, dated November 14, 1994,  
3 amended February 23, 1995, approved and modified September 27, 2002 ("Decision"). The  
4 Decision established the procedures for adjudicating *de minimis* water rights for claims in the  
5 San Pedro watershed designed to expedite the resolution of this claims. With respect to priority  
6 dates, the Decision states:

7  
8 The priority dates for these uses will be determined by use of the apparent  
9 dates of first use as listed in the potential water right section of the watershed  
10 file report. If the watershed file report is incomplete or ambiguous, the priority  
11 date will be determined in the following sequence: (1) the earliest date set forth  
12 in a judicial decree or Water Rights Registration Act filing; or (2) the earliest  
13 date set forth in any other pre-adjudication filing, adjudication filing or other  
14 admissible credible evidence.

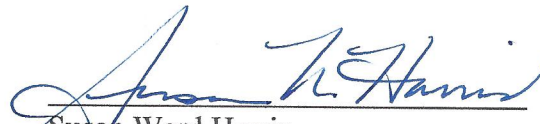

15 Decision at 42.

16 Once the proposed water right abstracts have been prepared, "the litigants will be  
17 provided an opportunity to suggest the correction of mistakes in the proposed abstracts."  
18 Decision at 47. This proceeding is not a forum in which to relitigate the Decision, which was  
19 the subject of years of briefing and has now been affirmed for more than 14 years.  
20 Subsequently, these abstracts will be included in a catalog of proposed water rights where they  
21 will be subject to very limited set of objections and ultimately in a final decree.

22 As required by the Decision, proposed water right abstracts have been prepared for the *de*  
23 *minimis* water rights analyzed by watershed file nos. 115-05-005, 115-05-017, and 115-05-018  
24 which are attached as Appendix A.

25 **IT IS ORDERED** that any suggested corrections to the proposed abstracts shall be  
26 filed on or before January 17, 2019.

Salazar filed Statement of Claim 36-61127 claiming “continuous beneficial use prior to 6/12/1919”. On December 14, 1979, E.G. Salazar submitted a letter stating that he was amending the Statement of Claim to 1867. On September 25, 1996, BLM filed an amended Statement of claim asserting a priority date of 12/31/1883.
